GHOST IN THE SHELL: STAND ALONE COMPLEX

VOLUME 2: REVENGE OF THE COLD MACHINES

Based on the popular TV series!

Ghost in the Shell is one of the top-selling franchises in the genre, with best-selling books, comics, graphic novels, toys, and movies.

It is 2030. In the wake of the third world war, cybernetics has blurred the definition of what makes us human. The concept of the soul has also grown more complex, as machines have developed "ghosts," aspects of intelligence that make them more than just nuts-and-bolts machines. In this dystopia, the crimes of the flesh and the metal are investigated and punished by Section 9, an elite counterterrorist squad headed by Chief Aramaki and Major Motoko Kusanagi, an officer whose brain has been transplanted into a totally cybernetic body. In a dark world of murder, cyberbrain hacks, and conspiracies that reach to the heights of government, Section 9 is all that stands between the people and anarchy. In these three stories—"Double Targets," "First Love, Last Love," and "Revenge of the Cold Machines"—the action heats up as Aramaki and Motoko face new, catastrophic threats.
